A WORD ABOUT PRICING

Prices shown in this catalog are scaled as low as possible, to give you maximum value based upon markets that are current when we go to press. Even when our costs go up, we wait until the last possible minute before reflecting these increases, and then prices are held to a minimum. Our policy is to maintain lowest prices throughout the life of the catalog, whatever the market, but *we must necessarily reserve the right to change prices without notice.*

Great care is taken to avoid any error when preparing this catalog, but the publishers cannot hold themselves responsible for errors or omissions.

The Ultimate in Value!

All engagement rings on this page are available in two qualities—premium and choice. All styles are priced the same, see ordering instructions below.

FLATWARE

Sterling . . . the accepted standard of quality among people of judgment and good taste. There is no substitute for solid silver, it has no equal in depth of beauty, color and patina. Sterling never wears out or goes out of style . . . it grows more beautiful and gives more and more pleasure as you own and use it through the years. It is a practical luxury. It can be used for any family or party occasion, from casual meals to the most elegant formal dinners. Sterling is not meant to be locked away for "special occasions" . . . it grows mellower and richer appearing as it is used again and again. Use sterling exclusively . . . you will never need any other flatware.

REED & BARTON Spanish Baroque—dignified traditional pattern · Tara—the essence of classic beauty · Renaissance Scroll—lavish embroidered beauty · 18th Century—elegantly fluted

NO NEED FOR SPECIAL KITCHEN TOOLS WITH CLUB'S NEW DURABOND TEFLON II INSIDE FINISH

Of course Club Aluminum has a new more durable Teflon II finish. Durabond is their name for it, and it permits the use of regular kitchen tools . . . and still lasts and lasts. Black so that it is virtually stainless, but still with all the "stickless cooking — no scour clean up" qualities that are so important.

But it is the construction of the pans themselves that really counts. Thick solid even heating cast aluminum. Favored by good cooks for generations, there is nothing quite like it.

Thick even heating cast aluminum for healthful full flavor cooking

Set includes 1, 1½ and 2-qt. sauce pans, 6¾ and 10-inch fry pans and 4½-qt. Dutch oven. Interchangeable covers fit both fry pans.

MAIL AND SHIPPING INFORMATION

PARCEL POST

To compute the rate, add the weights of all parcels to determine the combined total.

Refer to Parcel Post chart and determine the zone. (If in doubt contact your local post office for zone information.) This figure should be the approximate cost. Be sure and include the weight of the carton and packing approximately one to two pounds, depending on size.

PARCEL POST RESTRICTIONS

The maximum weight of parcel post packages to first class post offices in first and second zones (not over 150 miles) is 40 pounds and the maximum size is 78 inches in length and girth combined. Between first class offices in other zones, (over 150 miles) the parcel cannot exceed 40 pounds. These restrictions do not apply to second, third or fourth class post offices and a parcel may weigh 70 pounds and the maximum size is not to exceed 100 inches in length and girth combined.

CAUTION: Insufficient postage will delay your order. If weight is not shown on item you are ordering, please estimate weight. Overpayment for postage will be refunded.

NOTICE: Postal regulations permit you to enclose letter of explanation inside package if the statement "First Class Mail Enclosed" appears on the outside of package (below postage). This requires the addition of first class postage for the letter.

REX EXPRESS

is the fastest way to ship unmailable and bulky merchandise. If REX Express is located in your town, the merchandise is delivered to your home at no extra cost. If you use Railway Express and there is an office in your locality, you need not send the money for shipping.

Use the table below to figure your express charges. An example — If the merchandise weighs 23 pounds and you live 100 miles from the shipping point, your express charges would be approximately \$8.03.

REX EXPRESS

MILES POUNDS	100	200	300	400	500	600
1 lb. to 25 lbs.	8.03	9.19	9.63	9.96	10.29	10.89
26 lbs. to 50 lbs.	8.86	10.62	11.22	11.72	12.16	13.15
51 lbs. to 75 lbs.	9.19	11.99	12.37	15.48	14.19	15.40
76 lbs. to 99 lbs.	9.79	13.31	14.41	15.24	15.62	17.60
100 lbs. and over	9.35	12.87	13.97	14.80	15.18	17.16

FREIGHT CHARGES: You pay freight rates based on 100 pounds, though shipment may weigh less; however, any order weighing more than 65 pounds is as economical to ship by freight as any other means, but it is slower than express or parcel post. If there is no freight office in your town please state the name of your nearest freight office on the order blank.
